

KITCHENS

DESIGNED FOR LIVING | BUILT FOR LIFE

FOUR-CORNERS.CO.UK

WELCOME TO FOUR CORNERS

We're a family business based in the Cotswolds, with over 50 years experience in kitchen design and cabinet making. Our passion is design, craft and character.

The kitchens and furniture we craft will become a well loved feature in your home, lasting a lifetime. The wood and joints of your cabinets are guaranteed for 25 years.

Our wooden units are either painted or naturally finished with oils. Painted finishes are very popular and available in any colour. Natural finishes show wood with lots of character, each piece has interesting grain and is as unique as the trees it has been crafted from.

We are proud of our ability to design a kitchen with you that will be the heart of your home. We take time to understand your needs and, with a watchful eye on your budget, design your kitchen including bespoke pieces that make your kitchen uniquely yours.

James Adwik

James Adcock Four Corners

WHY FOUR CORNERS?

We understand your kitchen is the heart of your home, a financial as well as emotional investment. It is vital you know what is going on and that your project runs smoothly. This is why we manage the whole process with meticulous detail.

Each kitchen is unique; from the initial consultation and planning through to the cabinetry, preparation, delivery & fitting.

We use traditional British woodworking methods such as dovetail joints and mortice & tenon joints as well as in frame doors to ensure your cabinets last a lifetime.

All the work is carried out by our own team with full control at every stage. The wood we use is sustainably and sensitively sourced in the Carpathian Alps of Romania where bears, wolves and wild boar roam. We then bring a slice of Europe's largest wilderness to the Cotswolds. Four Corners offers a professional service with the added personal touch, flexibility and friendliness you would expect from a family run company.

BESPOKE SERVICE

Not all bespoke furniture is equal. At Four Corners we offer a fully bespoke service:

With no restrictions on frame, door or cabinet size our Designers will listen and discuss your ideas then carefully design the cabinets to tailor make your kitchen to suit your needs. Handcrafted, your hardwood cabinets are made to order with traditional techniques and finished to your specification. Built to last a lifetime the cabinetry is guaranteed for 25 years.*

Our skilled Fitters bring your unique kitchen to life in your home with attention to detail and care.

No hard sell just thoughtful design and craftsmanship.

DESIGNING YOUR PERFECT KITCHEN

Following our expert Kitchen Designer's first meeting with you at your home we will start with a blank piece of paper and map out your kitchen the traditional way. This plan will then be used to generate a virtual kitchen design based on your discussions with us.

Using our Computer Aided Design (CAD) package we are able to put together a design sheet featuring detailed floor plans, 3D views, birds eye views and photo realistic pictures to help you visualise the final look of your kitchen... Allowing you to see your kitchen before it is even built.

This information is presented to you at our second meeting. We explain the design and go through the plan, the CADs and the costs with you. Our initial meeting has often prompted further thoughts on your part so together we have a thorough discussion and amend the design to ensure your new kitchen is all you hope for.

DEVELOPING & PREPARING YOUR SPACE

We can provide a range of in-house building works including: stud walls; plastering, decorating and, tiling for both floors and walls.

In addition we have a list of recommended plumbers, electricians and builders.

ELECTRICS · PLUMBING · PLASTERING · BUILDING WORKS

DESIGNED FOR LIVING | BUILT FOR LIFE | FOUR TEL: 01789 297 818

QUAKER KITCHEN

Hand crafted Shaker style cabinets made of maple and oak hand painted for you in your choice of colour.

This versatile range can capture country charm using English heritage shades and traditional handles; alternatively create a cool contemporary look with clean colours and modern handles.

Create a focal point with the use of a bold choice of colour in select areas and use curved units to create a flow and interest in the heart of your home.

QUAKER KITCHEN

Whether you prefer modern or traditional, minimalist or extravagant, our range of shaker style kitchens are suited to almost any taste, thanks to the simple beauty of the design

LINEAR KITCHEN

A blend of modern style and function with traditional cabinetry skill. The Linear Kitchen transforms the heart of this traditional Cotswold home into a contemporary space.

Flat panelled doors and drawers are the key design features for this range.

LINEAR KITCHEN

As you would expect from Four Corners the design also features framed wood cabinets and oak drawer boxes with dovetail joints.

This traditional cabinetry provides strength and stability ensuring your kitchen is designed for living.

TRADITIONAL KITCHEN

The Four Corners Traditional range features a choice of beading on the doors and drawers, giving your kitchen a more period style. Capture the look by letting the oak shine or, using period paint colours combined with traditional style handles.

The use of a bolder colour to create a focal point such as an island, larder cupboard or, around your hob can add real impact to your kitchen.

DESIGNED FOR LIVING | BUILT FOR LIFE | FOUR-CORNERS.CO.UK | TEL: 01789 297 818

ASHWORTH KITCHEN

A reflection of the contemporary, industrial interior design trend.

Handmade in Ash, a durable sustainable hardwood, it features tongue and groove doors and drawers and is shown here in combination with our linear kitchen.

Floating shelves add open storage and teamed with stainless steel appliances and the very durable Dekton slate style worktop it is a kitchen that means business.

This kitchen is featured in Series 3 Episode I of Channel 4's Ugly House Lovely House with George Clarke.

COTSWOLD KITCHEN

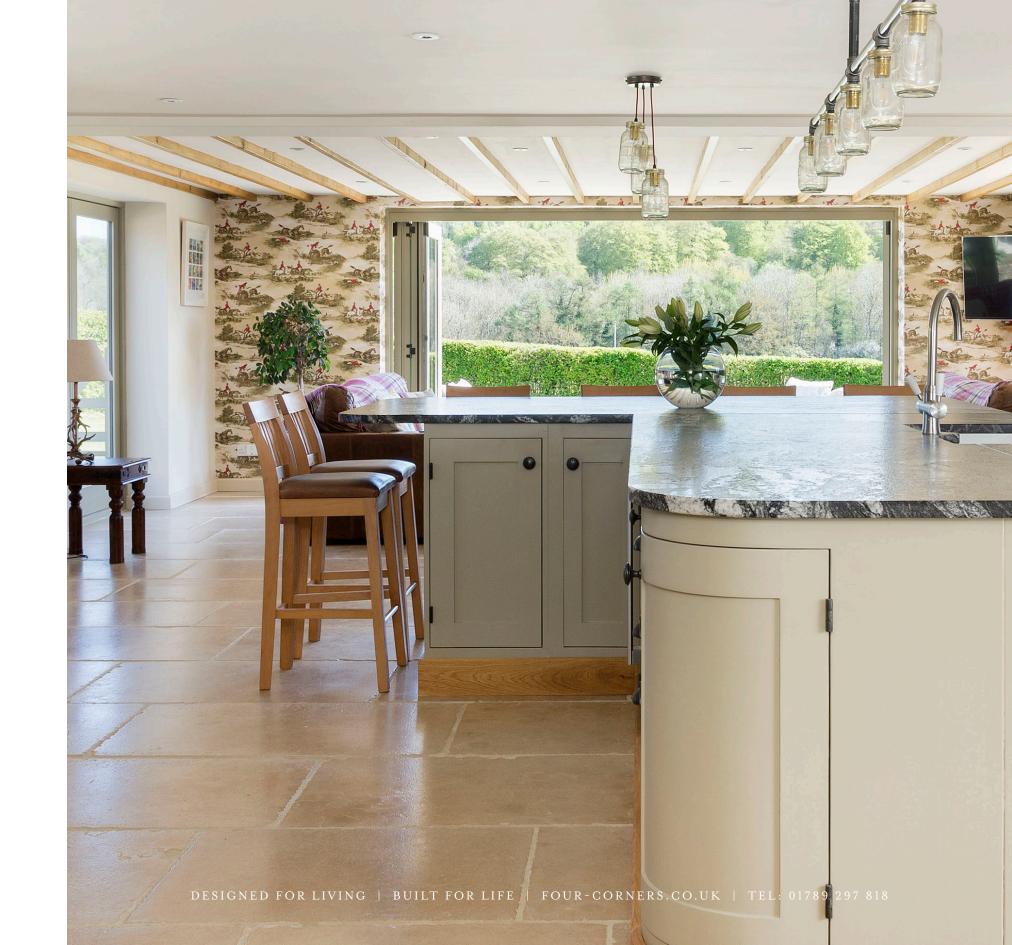

The Cotswold range takes its cue from country kitchens and furniture.

Painted tongue and groove panelling together with peg detailing on oak doors and drawer frames give this range a more traditional look. Team this with different oak finishes to create your own bespoke slice of the Cotswolds.

WORKTOPS

Kitchen worktops need to be both practical and complementary to the design of your kitchen and your budget. Four Corners offer a huge range of worktops from top of the range Dekton & Corian to all stones and wood, as well as everything else you may need.

Here is a summary of a few of the options:

DEKTON

A highly compressed man-made stone worktop with a heatproof and stain-proof guarantee; it comes in a variety of colours and finishes. As an elite studio we have access to exclusive designs.

CORIAN

Like Dekton, Corian is man-made; bonding stone with a high level of resin. It can be moulded to create sinks and upstands with no seams. It comes in a range of colours.

QUARTZ COMPOSITE

Market leading brands such as Silestone offer a wide range of colours for this very popular man-made stone. It comes in slabs like granite and is stain resistant. As an elite studio we have access to exclusive styles.

GRANITE & MARBLE

Natural stones from around the world with all the changes and variety you would expect from a natural product and a large number of colours. Granite is a harder stone than marble.

SOLID SURFACE

A hybrid of laminate and man-made stone, Solid Surface worktops have a acrylic surface usually 8mm thick with a particle board core. Cheaper than the stone worktops and offering a similar looking finish.

WOOD

Available in a wide variety of colours and finishes, wooden worktops add character and, offer the acoustic ability to soak up noise in a room where you may have lots of solid surfaces. A cost effective solution and often used in combination with stone.

LAMINATE

The most famous name of this type is Formica.

A particle board base is topped with a thin layer of limited heat and stain resistant plastic; Available in a wide variety of colours; Cost effective way of fitting a worktop when budgets are tight.

BESPOKE WORKTOPS

Cement, stainless steel and slate worktops can all be sourced. Just let us know what you'd like during your design consultation.

ACCESSORISE YOUR KITCHEN

Your kitchen cabinets will feature the highest quality fittings including smooth closing Blum drawer runners and, a wide variety of pull-outs including internal wirework such as magic corners and easily accessible larders multi-compartment integrated bins and, of course cabinet lighting.

Essential to your kitchen are sinks and taps; with thousands to choose from you will be spoilt for choice. Many of our customers also have boiler and filter taps fitted too – no more waiting for the kettle to boil!

APPLIANCES & ESSENTIALS

We supply all brands of integrated and freestanding electrical appliances.

Brands include: Fisher & Paykel, Miele, Bosch and Neff.

Innovative products such as a favourite for islands, the Bora hob, with its integrated extraction & as seen on baking shows Neff's Hide & Glide oven doors are favourites of our customers.

If ranges are your style we supply bespoke ones from ILVE and Lacanche.

Extractor fans come in many shapes and sizes too; whether your preference is for a contemporary statement or a hidden option. Our bespoke canopy surrounds for integrated extraction create a wonderful focal point in kitchens.

ACORNS TO OAK TREES

We'd have to go back nearly 40 years to discover the acorn from which Four Corners has grown - James' father David began his career with furniture. James grew up in the family business making his first piece of furniture whilst he was still in primary school. When James and David set up Four Corners in 1999 they decided the furniture should be made in Romania – its sensitively managed forests and skilled craftsmen made it an obvious choice.

In the Carpathian Alps they bought an old dairy farm and converted it into a workshop with state of the art tools and, their own kiln to dry the wood. They also employed Doina and Cristi Stania whom David met in his first forays into the country's cabinet making industry. Doina and Cristi have been joined by 40 skilled craftsmen and women working for them; James visits every month - David has now retired.

As Four Corners owns its own workshop this means we control the quality and, have the flexibility needed to offer bespoke kitchens and furniture.

Once the kitchens and furniture have been crafted it is hand finished to our customers' requirements or primed ready for hand-painting and then carefully bubble-wrapped awaiting shipment to us in the Cotswolds.

We want our kitchens and furniture to be as eco-friendly as it can be. We've built our own solar powered kilns to dry our wood. The trees we use have been individually chosen; there is a no clear felling policy in the forests the logs can be pulled out by horses to minimise ecological damage.

We are proud of our British heritage and Romanian craft.

HANDLES & KNOBS

Handles transform a piece of furniture. They will create a rustic, contemporary or traditional look to your kitchen. We have access to thousands of designs and a selection of standard designs are available to view in our showrooms.
